

Coronavirus (Covid-19) Response

To Our Valued Customers:

As the COVID-19 crisis is constantly evolving, we continue to closely monitor the spread, and the control of COVID-19, and have taken appropriate measures to ensure the safety of our customers and employees. To do so, we are following the recommendations of the leading health organizations; the Centers for Disease Control and Prevention (CDC), and World Health Organization (WHO).

COVID-19 infection is caused by coming into close contact (about 6 feet or two arm lengths) with a person who has illness. COVID-19 is primarily spread from person to person. You can become infected from respiratory droplets when an infected person coughs, sneezes, or talks. You may also be able to get it by touching a surface or object that has the virus on it, and then by touching your mouth, nose, or eyes.

During this time, our business has been maintaining a high standard of safety and cleanliness, both in our customers' homes, in our offices, and in our warehouse. We have implemented and are vigilantly tracking the application of additional measures and operational changes, such as hand-washing, maintaining appropriate social distancing, and OSHA-approved PPE equipment - facial protection.

Brauns International requires all employees, vendors and customers to wear a mask while at our facility or during packing and delivery services at residence. If you feel you are displaying flu like symptoms, we ask that you notify us immediately. During this time, we recognize your confidence in us is more important than ever and we will continue taking all necessary precautions to ensure everyone's safety.

Sincerely,

The Brauns International Team
